XPERIENCE 5 CANBERRA

On Saturday 27th November we decided to give Sydney a big miss, no particular reason, we were just itching for a change. In the mobile we jumped and off to we Canberra we went. Off to XPERIENCE 5 the 5th in a series of Canberras biggest raves.

The venue was the Refectory at the Australian National University, a good venue and the set up was amazing, the light show was brilliantly co-ordinated and the DJs were excellent! I had a really good time but there was one thing missing, a crowd, the turn out was pitiful, at no fault of the promoter. Just a little word to all those Canberians that have been complaining about the Rave Scene there, why not try GOING to the parties before you start complaining, you're missing out on a potentially huge scene.

I'd give the promoter of XPERIENCE 5 a big fat E for EFFORT!!!!!!

EDI JUICY APPLE NDE TO SUMMER ESSENTIALS PART II

This summer parties like Happy Valley, New Years Eve (Unity 94), and of course NIGHT OF THE LIVING APPLEHEADS are going to keep you very busy and you're going to get very hot and sweaty not to mention smelly, so read on for a few handy hints on how to handle summer.

1. Please, for the sake of everyone around you, wear deodorant, and take some with you so you can apply it to your smelly, sweaty body in the morning otherwise you'll have no hope of getting a lift home.

2. If you're pimple prone (as so many ravers are) all this sweat is going to kill your skin and no amount of cleansing is going to help, it's unfortunate but honestly, nobody cares what your skin looks like. Don't worry too much about it, just remember that it's always dark when you go out so no one will notice, just make sure you're on your way home before sunrise.

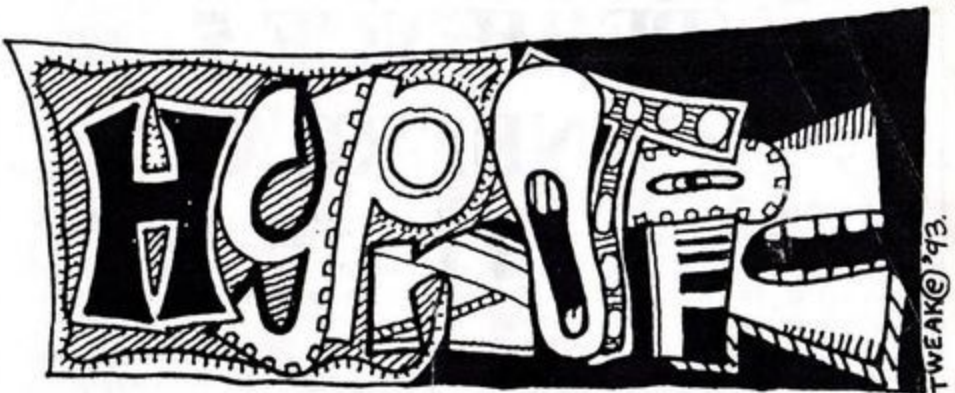

3. It's a good idea to take a spare t-shirt at least to a party like Happy Valley, I'm just remembering after PRODIGY 4, having to travel for two hours home in a disgustingly dirty, smelly t-shirt, not a very comfortable thing for my friends to have to deal with.

4. It's a good idea to make sure you've got plenty of money for a large water supply, especially those referred to in point 2. Water does wonders for the body and revitalises those tired brain cells. Also, try GATORADE it's been around for awhile but it's only just hit Australian shores it rehydrates the body something like 30% faster than water does, it won't be long before this goes on sale at raves.

5. Maybe take an inflatable swimming pool in the boot of your car and fill it up in the morning and have a swim. (I'm not serious so please kids, don't try this, you'll probably have some idiot trying to bomb it!).

If you have any helpful hints for summer please let us know, we promise we'll print them.
